# THIS LESSON IS ABOUT:

- COUNTABLE AND UNCOUNTABLE NOUNS

# Welcome!

- ✓ Share a brief introduction of yourself with the group.
- ✓ How are you progressing through the course? Have you found the activities and the dictionary in the platform useful?
- ✓ How often do you attend live lessons?

## Starting Point

In this second part of the lesson, we're going to work with some of the grammar learned in Level 2.

- Do you remember the grammar you worked in this level?
- What was easy for you?
- What did you find difficult?

# Review: The Present Continuous and Simple Present

- ✓ What's the difference between the simple present tense and the present continuous?

The time expressions below help you differentiate both tenses. Choose one for each tense and create a sentence.

| Present Simple | Present Continuous |
|----------------|--------------------|
| Clue words     | Clue words         |
| Always         | At the moment      |
| Usually        | At present         |
| Often          | Currently          |
| Sometimes      | Nowadays           |
| Never          | Now                |

# Quiz: Simple Present and Present Continuous

Choose the correct answer.

1. When do I use the present simple?
  - a. To talk about routines and habits
  - b. To talk about things happening now
  - c. To talk about temporary actions
2. Which of these is correct?
  - a) Are you work every day?
  - b) Does you work every day?
  - c) Do you work every day?
3. Which of these is correct?
  - a. Do she run in the park?
  - b. Does she runs in the park?
  - c. Does she run in the park?
4. Which of these words is not usually used with the present simple?
  - a. Always
  - b. At the moment
  - c. Every weekend
5. When do I need to add -s / -es to verbs in the present simple?
  - a. When the subject is plural
  - b. When the subject is you / we / they
  - c. When the subject is he / she / it
6. When do I use the present continuous?
  - a. When I talk about habits
  - b. When I talk about actions in progress and temporary actions
  - c. When I talk about moments in the day
7. What do I need to add to the verb when I use the present continuous?
  - a. -es
  - b. -ed
  - c. -ing
8. Which of these sentences is correct?
  - a. I can't go to the cinema because I'm studying
  - b. I can't go to the cinema because I studying
  - c. I can't go to the cinema because I'm study
9. Which of these sentences is correct?
  - a. I'm usually going to the supermarket on Mondays
  - b. I go usually to the supermarket on Mondays
  - c. I usually go to the supermarket on Mondays
10. Which of these sentences is correct?
  - a. I'm always nervous before an exam
  - b. I'm nervous always before an exam
  - c. I always am nervous before an exam

# Countable and Uncountable Nouns

Fill in the blanks.

Countable nouns are things which **can be** counted like '*table*', '*apple*', or '*boy*'. They usually \_\_\_\_\_ their form when we make a plural (*they often add an 's'*), and can be used with either a singular or a plural \_\_\_\_\_.: *one book falls, two books fall.*

On the other hand, uncountable nouns are \_\_\_\_\_ things which can't easily be counted, like '*love*', '*rice*' or '*water*'. Uncountable nouns **do not** \_\_\_\_\_ a plural or change their form, and they are always used with a singular verb. We **can't** say *one rice, two* \_\_\_\_\_.

|       |      |         |      |        |
|-------|------|---------|------|--------|
| rices | make | usually | verb | change |
|-------|------|---------|------|--------|

# Uncountable Nouns

Match the category with the examples.

- |                                                         |                                   |
|---------------------------------------------------------|-----------------------------------|
| 1. Abstract nouns                                       | a. Math, French, History          |
| 2. Subjects from school                                 | b. metal, wood, plastic           |
| 3. Materials                                            | c. love, peace,<br>democracy      |
| 4. Liquids                                              | d. sand, rice, salt               |
| 5. Gases                                                | e. water, coffee, milk            |
| 6. Thing that are made<br>up of lots of small<br>pieces | f. oxygen, air, carbon<br>dioxide |

# Read aloud and give another example for each word in the table.

Many words can be used in both, an uncountable way and a countable way. This is especially true on uncountable food and drink, such as: 'coffee' or 'yogurt'. When we're talking in general about coffee or yogurt, the words are uncountable. But, we can use them in a countable way when we mean '**one cup of**' or '**one pot of**':

- Uncountable: Coffee is my favorite drink.
- Countable: Could you buy two coffees and two teas, please?

Other words that act like this include: *water, juice, salad, curry, and cake.*

There are a few words that change their meaning depending on if they used in a countable way or an uncountable way. For example:

|                   |                                                                                              |                                                                                                               |
|-------------------|----------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|
| <b>Hair</b>       | Countable = one hair<br><i>Ugh! There's a hair in my food!</i>                               | Uncountable = all the hair on a person's head<br><i>She has very beautiful hair.</i>                          |
| <b>Paper</b>      | Countable = a newspaper<br><i>I bought all the papers this morning.</i>                      | Uncountable = paper in general<br><i>Could you give me some paper to write on?</i>                            |
| <b>Light</b>      | Countable = a single lamp or light bulb<br><i>The Christmas tree was covered in lights.</i>  | Uncountable = light in general<br><i>The room was full of light.</i>                                          |
| <b>Experience</b> | Countable = one event<br><i>I traveled to Thailand and it was a really great experience.</i> | Uncountable = when you've done something for a long time<br><i>She has a lot of experience with children.</i> |

# How many or How much?

\_\_\_\_\_

---

\_\_\_\_\_ is used with  
uncountable nouns.

- \_\_\_\_\_ time do we have  
to finish the test?
- \_\_\_\_\_ money did you  
spend?
- \_\_\_\_\_ sugar would you  
like in your coffee?

\_\_\_\_\_

---

\_\_\_\_\_ is used when we want  
to know the QUANTITY of  
something.

It is only used with plural  
countable nouns.

- \_\_\_\_\_ days are there in  
January?
- \_\_\_\_\_ people work in your  
company?
- \_\_\_\_\_ cousins do you have?

We use: some with positive sentences and any with negative and interrogative sentences.  
✓ Give an example.

# Comparative and Superlative Adjectives (1)

Read aloud and give another example.

## Adjectives with one syllable

To make the **comparative** form of adjectives (*like 'bigger' or 'more expensive'*) and the **superlative** form (*like 'biggest' or 'most expensive'*), first we need to know how many syllables are in the adjective.

Usually if an adjective has only one syllable, we add 'er' to make the comparative form. We add 'est' to make the superlative form.

- clean → cleaner / cleanest
- cold → colder / coldest

There are some spelling changes. If there is one vowel followed by one consonant at the end of the adjective, we often double the consonant.

- big → bigger / biggest
- hot → hotter / hottest

If the adjective ends in 'y', this often changes to 'i'.

- dry → drier / driest

If the adjective ends in 'e', we don't add another 'e', just 'r'.

- nice → nicer / nicest
- large → larger / largest

Even when the adjective has only one syllable, it's still not wrong to use 'more' or 'most'. It's possible to say 'more wet' or 'most tall'. This isn't incorrect.

There are a few adjectives that we have to use 'more' or 'most' with, even though they only have one syllable. We CAN'T add 'er' or 'est'.

- fun → more fun / most fun (NOT funner / funnest)
- wrong → more wrong / most wrong (NOT wronger / wrongest)

# Comparative and Superlative Adjectives (2)

Read aloud and give another example.

## Adjectives with two syllables

For adjectives with two syllables we generally use 'more' or 'most'.

- careful → more careful / most careful
- bored → more bored / most bored

But some two syllable adjectives can take 'er' or 'est'. It's also fine to use 'more' (for the comparative) or 'most' (for the superlative).

- simple → simpler / simplest
- quiet → quieter / quietest

Adjectives with two syllables that end in 'y' usually can add 'er' or 'est' (y generally changes to i). It's also fine to use 'more' or 'most'.

- dirty → dirtier / dirtiest
- ugly → uglier / ugliest

## Adjectives with more than two syllables

Adjectives with more than two syllables can only make their comparative by using 'more' and their superlative by using 'most'.

- interesting → more interesting / most interesting
- expensive → more expensive / most expensive

## Irregular adjectives

There are also some irregular adjectives. We just need to learn these forms.

- good → better → best
- bad → worse → worst
- far → further → furthest
- little → less → least
- much → more → most

# Summing Up

**Correct the mistakes. Find the countable / uncountable noun and identify the tense.**

1. The prices online are getting cheapest than in the store.
2. That was the most quick flight.
3. I think the situation is worser now.
4. Some journeys by train are the most fast than by plane.
5. Economy class is less expensive that business class.

## Today we learned...

- ✓ To review the differences between the present simple and continuous.
- ✓ To reinforce countable and uncountable nouns.
- ✓ To become more accurate when using comparatives and superlatives.

- EXPLICIT TEACHING OF GRAMMAR FOR  
LEVEL 2 (PART 2)
